# WHAT IS MICROCEMENT?

*Microcement is one of the latest interior design trends all over the world. It is a decorative cement-based coating that can be coloured in more than a thousand shades. When combining its characteristics with the ability of the applicator, it is possible to achieve unique handcrafted surfaces..*

# WHAT IS CREATIVO?

**CREATIVO** is a Microcement and resin system made eco-friendly raw materials, which combines an exclusive design, protection and resistance. Thanks to its characteristics, it is perfect for making floors, walls and furnishing elements, and to preserve their beauty over time and give life to a timeless design.

## CREATIVO MICROCEMENTO

**Two-component Microcement for floors and walls**

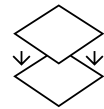

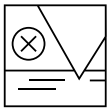

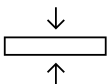

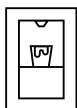

## CREATIVO MONO

**Ready-to-use microcement**

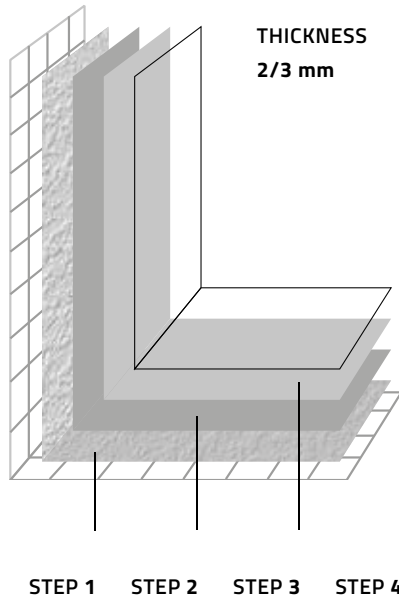

## CREATIVO METAL

**Pure liquid metal for luxury decorations**
